Vishal Nagda

Senior Backend Developer | Go | JavaScript | Node.JS | Python | Flask | PHP | AWS | Passionate about building scalable solutions.
Udaipur, Rajasthan, India

Summary

I am a passionate and experienced web developer with a strong background in building scalable and secure applications. With a solid track record of delivering successful projects for clients across diverse industries, I am skilled in a range of technologies including Node.js, Django, SQL and NoSQL databases. I am always eager to learn and adapt to new technologies, and thrive in collaborative and dynamic environments. Looking to connect with like-minded professionals and explore exciting opportunities in the web development space.
